**BUFFALO
BREEZO**
to
*discriminating
housewives*

"I HAVE SUFFERED FOR YEARS—not with flat feet, rheumatism or indigestion—but with the odor of cooking greeting me at the front door of my home — fish — French fried potatoes — cauliflower — chili pickles—

The Kitchen in the Vestibule!

"How often have I as a hostess rushed frantically, in that last moment before the guests arrived, to open windows and air the house so that there might be at least some element of surprise left for the dinner

table! All this and more, until one day I saw the advertisement: 'Why suffer from kitchen odors throughout the house when a Buffalo Breezo placed in your kitchen will remedy it all. Let our agent show you the ventilating system so easily installed and so moderate in price.'

"He came—I saw—and we conquered the difficulty! "Every woman voter should be first of all a good housekeeper. If you live in an apartment or small home surely you need a Breezo and when you buy one, your only regret will be the years you lived without it."

Mrs. Franklin D. Roosevelt Endorses the "Kitchen-test"

I know that Gold Medal "Kitchen Tested" Flour is an insurance against baking failures because each batch is tested in a kitchen for every baking purpose. It must be just right before it leaves the mill and I heartily endorse its use in every home.
