Presidents' Report

As usual, the League picnic gave us a chance to sample the fine cuisine prepared by folks who attended and enjoy spirited conversation in those comfortable chairs at the Chelsea Clubhouse. We had a short program with highlights from the National League Convention. Thank you to Sally Metzger for hosting the picnic, and to Ramona Gallagher and Janet Massaro for your comments about the convention.

Members have been renewing their membership at a very good rate. We contacted people who still need to renew League membership for 2016-2017 in mid-August either by email or by phone. Please send your renewal with the completed survey if you still need to do so. We need your support, both financial and through participation in committees or other League efforts. The vitality and strength of our League come from the work of its members.

We need your help to contact candidates who are slow to respond to our requests for our Vote411 and Voters Guide. We will email you names of candidates who have not responded to our invitation to participate in the Voters Guide. Please call or send an email to candidates from your districts to urge them to participate. Contact them as constituents. Candidates in the September Primary will be covered on Vote411 online. Candidates for federal, state and local office will be covered in both Vote411 and our printed 2016 Voters Guides.

The board appointed Pat Costanzo, Nicole Matteson and Lori Robinson to the 2016-2017 Nominating Committee. They join the members elected at the annual meeting: chair, Ramona Gallagher, and members, Janet Goodsell, Kathleen McCarthy and Lynne Vallone.

At its August meeting, the board members discussed the charge to the Nominating Committee and the need to address succession planning for League leadership and term limits for officers and board members.

Shirley Joy and a committee of interested League members will address these governance issues. Some of the changes may affect the bylaws and be approved by the members at the 2017 annual meeting. Our goal is to develop new League leaders and ensure that an incoming president is well prepared for the job in an intentional manner. This is an opportunity for service. Please contact Shirley Joy at events@lwvbn.org or call the League office to volunteer. This committee will need to make recommendations to the board at its April 2017 meeting.

The board Finance Committee has accepted responsibility to pursue a change in our corporate status. We will be sharing what that means to members with articles in the Voter, so keep an eye out for that. It won't change how we do business in any way. A good number of Leagues and some state Leagues have already made the change and we expect to have good guidance from our state League. Both Lori Robinson and I attended a workshop at the National Convention that featured Leagues that have already made the change.

Great Decisions

Our next 2016 Great Decisions topic is the UN's post-2015 development agenda and leadership. I am scheduled to facilitate the discussion on Thursday, September 1, from 10 a.m. till noon at the League office, 1272 Delaware Avenue. "On the eve of the international organization's 70th birthday, the United Nations stands at a crossroads. This year marks a halfway point in the organization's global effort to eradicate poverty, hunger and discrimination, as well as ensure justice and dignity for all peoples. But as the UN's 193 member states look back at the success of the millennium development goals, they also must assess their needs for its sustainable development goals — a new series of benchmarks, which are set to expire in 2030. With the appointment of the ninth secretary-general in the near future as well, the next U.S. president is bound to have a lot on his or her plate." Hopefully we will have a good turnout. Great Decisions meetings take place on the first Thursday of every month. New members and guests are welcome to attend.

LWVBN Statement on Erie County Legislative Redistricting

On July 28, 2016, LWVBN presented a statement on the Erie County Charter Review Commission's proposal for an Independent Commission on Reapportionment (redistricting) to redraw county legislative districts after the next federal census in 2020.

League had closely monitored the last round of redistricting in 2010 — a very partisan, bitter battle that satisfied no one and was finally decided in court. The Charter Review Commission's new proposal attempts to eliminate partisan acrimony by removing the legislature and the county executive from the redistricting process.

League believes that the proposal still lacks important safeguards against political gerrymandering. Our recommended changes are summarized below. The League's complete statement on the Charter Review Commission's redistricting proposal for 2020 is available online.

Who should draw the lines. In addition to geographic diversity, the redistricting body should reflect the county's gender, racial, ethnic, and economic diversity. It should include members of both major political parties, minor parties, unaffiliated voters, nonpartisan community groups and interested citizens. Those prohibited from serving as commission members or on staff should also include paid lobbyists and those doing business with the county.

How lines should be drawn. Redistricting must follow federal and state law, including the "one person one vote" rule, and the Voting Rights Act. Clear guidelines among other competing criteria are needed to encourage compromise. It should be required that no advantage be given to incumbents or to challengers, or to one or another political party.

Promoting an open and transparent process. Redistricting should be accomplished in an open unbiased manner with citizen participation and access at all levels and steps in the process. Specifically the League asks that the process be subject to open meeting laws and that notice of all commission meetings and hearings be prominently announced. The commission should maintain a website with necessary data used in mapmaking and include information for the public to use to draw maps of their own. Summary reports of all commission meetings must be promptly available. The commission must issue a final report for public comment justifying any plan that may be adopted. There should be at least one public hearing in each legislative district.

Election Services Report

July brought the Election Services back to its core functions of supervising nominations and elections at BMHA housing sites.

The resident councils at both Shaffer Village and LaSalle Courts have been dormant for many years. At Shaffer Village the residents who attended were very enthusiastic about starting up a new resident council. An election was scheduled there in late August. A small but seemingly dedicated group of residents attended a nominations meeting at LaSalle. Their energy and dedication will hopefully lead to these new leaders inspiring their community.

I send heartfelt thanks to all of the committee members who assisted with the July mailing. With their dedication, this committee can function well and serve our League proudly.
